There is no true Final Cut Pro for Windows. By MacRumors Staff on October 18, 2021Monday October 18, 2021 11:59 am PDT by Tim HardwickApple today announced updates to Final Cut Pro and Logic Pro with new features and optimizations that take advantage of the new M1 Pro and M1 Max chips in the all-new MacBook Pro models. Using the latest Final Cut Pro 10.6 update and the M1 Pro and M1 Max, video editors can now play up to seven streams of 8K ProRes or color grade 8K HDR video at full resolution, and export ProRes video. Friday June 18, 2021 4:25 am PDT by Hartley CharltonApple has released updates for iMovie, Final Cut Pro, Motion, and Compressor, introducing a handful of new features such as enhanced media search and notifications for encoding batches, as well as bug fixes. iMovie 10.2.4 brings sixteen new solid and textured backgrounds with adjustable colors, the ability to import projects created with iMovie for iOS (version 2.3), and general stability. Wednesday February 24, 2021 3:23 am PST by Sami FathiApple has amended its trademark for Final Cut Pro, its professional high-end video editing software, in a way that suggests it could be planning to turn the now one-time payment model for the software into a subscription. As reported by Patently Apple, on Monday, Apple added a Nice Classification #42 listing to its Final Cut Pro trademark in Europe. The Class 42 identification is listed as...Monday December 14, 2020 12:11 pm PST by Joe RossignolApple today updated its video apps iMovie, Final Cut Pro, and Compressor for Mac with a unified sharing option for platforms like YouTube and Facebook. Apple has also updated its iMovie and Clips apps for iOS with matching functionality. In a new support document, Apple provides detailed instructions on how to share video files from iMovie, Final Cut Pro, Compressor, and Clips on YouTube. Thursday November 12, 2020 12:54 pm PST by Juli CloverApple today updated Final Cut Pro and Logic Pro, its video and audio editing apps designed for professionals, to version 10.5 and 10.6, respectively. The new software updates introduce improved performance and efficiency on Mac computers with Apple Silicon, along with new features that take advantage of the Apple Silicon Neural Engine. Apple's release notes for the Final Cut Pro X update...Tuesday August 25, 2020 8:03 am PDT by Joe RossignolApple today announced that it is updating its video editing software Final Cut Pro X to version 10.4.9 with several new features designed to enhance remote workflows and speed up editing for social media content creators. With more people working from home, Final Cut Pro X has received improvements to proxy workflows that make libraries more portable and streamline remote work with large. Thursday March 26, 2020 2:58 pm PDT by Juli CloverApple is offering new free trial options for Final Cut Pro X and Logic Pro X, its video and audio editing software designed for professional projects, giving customers 90 days to try them out prior to a purchase. The new longer trial options will be beneficial to those who are working from home, including students who are no longer able to work in a classroom environment, and those who are...Monday October 7, 2019 10:24 am PDT by Juli CloverAlongside macOS Catalina, Apple today announced the launch of an updated version of Final Cut Pro X, which is optimized for the upcoming Mac Pro and Pro Display XDR that goes along with it. The new version of Final Cut Pro X has a new Metal engine that's designed to take advantage of the power of the new Mac Pro while also delivering performance gains across a wide range of Mac systems. Thursday November 15, 2018 9:23 am PST by Juli CloverApple today announced a new update for Final Cut Pro X, which introduces support for workflow extensions that will allow professional video editors to use third-party apps and services directly within the Final Cut Pro app. Workflow extensions have been designed to match the look of Final Cut Pro, offering tight integration with the app. Media can be dragged into Final Cut Pro libraries...Monday April 30, 2018 11:29 am PDT by Juli CloverFinal Cut Pro, Apple's video editing software aimed at professionals, today received a minor update to address a few bugs that have been discovered since the release of the 10.4.1 version of the app. According to Apple's notes, the update fixes a bug that caused clips you didn't mean to select to be included when selecting multiple clips using the Shift key, and it addresses issues related...Tuesday April 10, 2018 8:04 am PDT by Mitchel BroussardVimeo today announced a new "Vimeo for macOS" app that brings some of the service's core functionalities to Mac computers, particularly aimed at creators using Apple's Final Cut Pro video editing software. While users could already upload to Vimeo from Final Cut Pro, the company noted that its new Mac app gives Final Cut Pro users "more control over file formats and video codecs". Monday April 9, 2018 8:02 am PDT by Joe RossignolApple today released Final Cut Pro version 10.4.1, the latest update to its professional video editing software that it previewed last week. The update is available from the Mac App Store free of charge for existing users, while Final Cut Pro remains \$299.99 for new users in the United States. The update may still be in the process of appearing for some users. Final Cut Pro 10.4.1...Thursday April 5, 2018 8:23 am PDT by Joe RossignolApple today previewed Final Cut Pro X version 10.4.1, an upcoming update to its professional video editing software. The headline feature is a new ProRes RAW format, which combines the visual and workflow benefits of RAW video with the performance of ProRes, a lossy video compression format developed by Apple for use in post-production.With ProRes RAW, editors can import, edit and grade...Tuesday December 19, 2017 1:02 pm PST by Juli CloverAlongside the launch of the iMac Pro last Thursday, Apple introduced a new version of Final Cut Pro X, the company's video editing software aimed at professionals. We went hands-on with the new Final Cut Pro X 10.4 update in our latest video to highlight the new features you can expect to see. Subscribe to the MacRumors YouTube channel for more videos. Final Cut Pro X 10.4 introduces 360° ...Thursday December 14, 2017 4:27 am PST by Joe RossignolApple today announced it has released Final Cut Pro X 10.4 and updated Logic Pro X, Motion, and Compressor alongside the launch of the iMac Pro. As previewed earlier this year, Final Cut Pro X 10.4 includes 360° VR video editing, HDR support, and new color tools like a white balance picker. It also includes support for HEVC, the new video format introduced in macOS High Sierra and iOS 11...Monday October 30, 2017 7:05 am PDT by Joe RossignolApple set up an iMac Pro at the third annual FCPX Creative Summit in Cupertino, California over the weekend, providing attendees with a closer look at the powerful workstation ahead of its December launch. Apple appears to have allowed attendees to take pictures of the iMac Pro at the event. French blog MacGeneration rounded up some of the photos shared on social platforms like Instagram and...Friday October 27, 2017 5:54 pm PDT by Juli CloverAt the Final Cut Pro X Creative Summit, which includes a visit to Apple's Cupertino Campus, Apple announced the next version of its video editing software aimed at professionals, Final Cut Pro X 10.4. Details about the announcement were shared on Twitter by FCPX experts Peter Wiggins, Alex Gollner, and Richard Taylor, giving us a hint of what's coming later this year. Image via Richard Taylor...Thursday January 19, 2017 5:26 pm PST by Juli CloverApple today updated Final Cut Pro X, Compressor, and Motion, its software designed for professional video editors. Today's updates, the first since October, add new features and multiple bug fixes. Version 10.3.2 of Final Cut Pro X introduces the ability to add custom folders of audio files to the Sound Effects browser, and the following bug fixes:- Ability to add custom folders of audio files...Thursday October 27, 2016 12:53 pm PDT by Juli CloverApple today released a major update for Final Cut Pro X, its video editing software aimed at professionals. Today's update includes a new look for the software, support for the Touch Bar included in the new MacBook Pro, and a host of other features. Final Cut Pro X features a revamped interface that's designed to streamline the layout for optimal screen space on the MacBook Pro, plus it...Thursday September 3, 2015 1:35 pm PDT by Juli CloverApple's professional video editing software Final Cut Pro X received its first update in months this afternoon, adding a handful of new features, fixing several bugs, and improving performance and stability. The update adds native support for the Sony XAVC-L and Panasonic AVC-Intra 4:4:4 files, introduces exporting of interlaced H.264 video, and allows users to import Canon XF-AVC 8-bit video...
